

Raphael K. Ogoe is a New York-based architect, artist, designer, and developer with a distinguished career spanning high-impact projects across residential, institutional, and cultural sectors. Trained under Pritzker Prize-nominated architect Robert A.M. Stern, Raphael honed his expertise in design, project management, and construction administration while contributing to globally recognized developments. He has worked on numerous high-profile projects around the world, including Museums, Universities, Airports, Commercial, Residential and Custom High end Residential Homes.

Raphael holds a Master of Science in Construction Management and Bachelor of Science in Architecture from NJIT, where his senior thesis earned academic acclaim. He has been featured in Architectural Record and Architect's Newspaper for his visionary sketches and renderings.

His professional affiliations include the American Institute of Architects (AIA) and the Ghanaian Engineers and Architects Association of America (GEAAA).

Key Projects & Contributions:

- Expo 2020 Sustainability Pavilion (Dubai, EAU): Contributed to the design efforts for Terra, a 92,000 square-meter structure operating on net zero energy and water, designed as a beacon of sustainable innovation to showcase cutting-edge solutions for environmental stewardship. Awarded LEED Platinum Certification
- Shanghai Residential Development: Led design efforts for an 80,000-square-meter luxury residential complex in Shanghai, China.
- Museum of the American Revolution (Philadelphia): Designed 18,000 sq ft of gallery and theater space, targeting LEED Gold Silver certification.
- Yale University Residential Colleges: Contributed to construction administration and project delivery for two 425-bed student housing complexes in New Haven, CT.
- The Hewitt School (NYC): Spearheaded renovations and expansions for this historic New York institution.
- American Water Co. Headquarters (Camden, NJ): Created a 220,000 sq ft corporate campus blending functionality with sustainable design.
- Church of Jesus Christ of Latter-day Saints Meeting House (Philadelphia): Delivered a 24,000 sq ft spiritual and community space.

Additional Expertise*:

- Institutional projects, including courthouses in Georgia and resort clubhouses in South Carolina, with a focus on quality control/assurance.
- Residential designs spanning North America, Ghana, Nigeria and Senegal a global design sensibility.
